Dr. Ted Johnson, D.C.  
4600 Kietzke Lane #N258  
Reno, Nevada 89502

Dear Patient:

I have decided that, after 33 years as a chiropractor, it is time for me to retire.

Not an easy decision by any means, since I have known some of you for many of those years. Let me assure you that there are no health issues that have necessitated this decision. I look forward to many years of healthy retirement.

Doing what? Spending more time with my wife Susan, reading those books that have been patiently waiting for me, nurturing my bonsai trees, doing chip carving, managing our yard, learning to play the dulcimer and, my latest fascination, astronomy. And let's not forget having more of an opportunity to visit children and grandchildren!

The choice to take this next step in my life was made easier when I met Dr. Kat Stock. Like me, chiropractic is not Dr. Kat's first career, having worked in the field of human resources before becoming interested in chiropractic. She is a graduate of Parker University in Dallas, Texas. She and her husband Tim and their two children moved to Reno this past year in order to enjoy a slower pace of life.

Dr. Kat's adjusting style favors low force chiropractic techniques (music to my ears!) and has experience in instrument adjusting so will continue to offer treatments using the Impulse IQ, the method I have

---

been using. She incorporates manual and instrument assisted muscle work, both of which you have experienced with my approach.

Dr. Kat is also trained in the Webster Technique, used most frequently with pregnant patients but applicable to anyone who has an imbalance in pelvic musculature. Other services include kinesio-taping, nutritional counseling and more. To learn more about Dr. Kat and her core values check out her website at <http://www.perfecthealthchiro.com>

Amidst all these changes, many of you will be excited to hear Carole will remain in her role as Office Manager as she brings such joy and fun to the front desk, I know most of you look forward to chatting with her almost as much as she enjoys serving you.

And finally, office hours will be increased from my current three-day week!

New Hours Beginning February 10 <sup>th</sup> 2020	
Monday	Closed
Tuesday	8AM – 5PM
Wednesday	8AM – 5PM
Thursday	8AM – 5PM
Friday	9:30AM – 2:30PM

Dr. Stock and I will both be at the office for at least the month of January so that I can introduce you to your new chiropractor!

Sincerely,  
Dr. Ted Johnson and Dr. Kat Stock
